**RE: Partnering in ETR construction for
"Rare and Undiagnosed Diseases" and
"Rare Adult Solid Cancers"**

Dear Colleagues,

The Multidisciplinary Joint Committee of Rare and Undiagnosed Diseases (MJC RUD) discussed the merit and possible long-term viability of the launch of EU Exams of "Rare and Undiagnosed Diseases", and as a separate entry, the EU Exam for "Rare Adult Solid Cancers" at the MJC RUD meeting held in association with the past Council Meeting in Brussels.

Both of the topics were considered as esteemed umbrella exams in the future EU exam palette, and therefore, construction of ETRs for both subjects were proposed in collaboration with the CESMA as exam expert body of the UEMS, and with all other professional groups, which interested in these topics.

Hereby we invite colleagues who are interested to join to these efforts via contacting us via euexam.rare@gmail.com mailbox.

Best regards,

Béla Melegh
President of
MJC RUD

Meave Durkan
Secretary of
CESMA

Vassilios Papalois
Secretary General
UEMS
